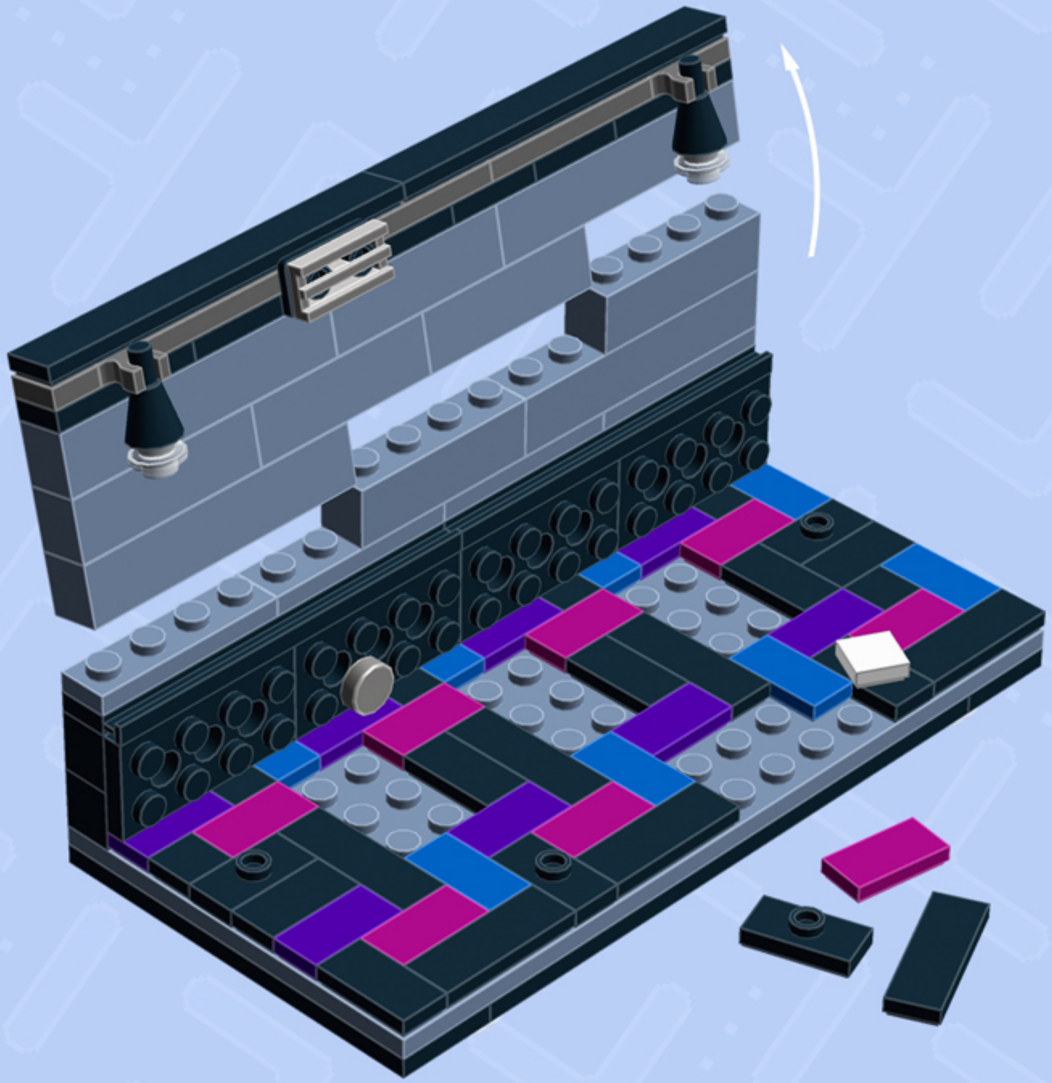
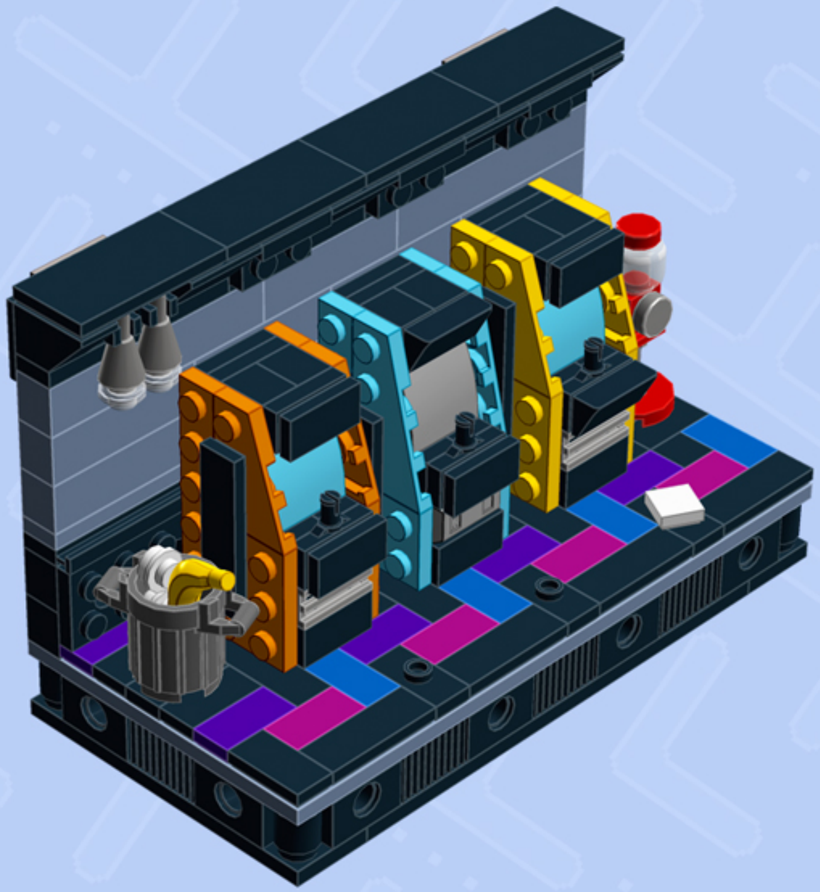
2 Disassemble arcade base and combine with upgrade parts.





Prefer the original layout in My Old Arcade: Power-Up Edition?

Instead of removing the floor tiles during disassembly, leave them in place and add the trash can, arcade machines and gumball machine back to their original spots when you're done assembling the base. (Please note that the original tile layout will not match up perfectly with Modular Arcade units.)

3 Build new arcade base.

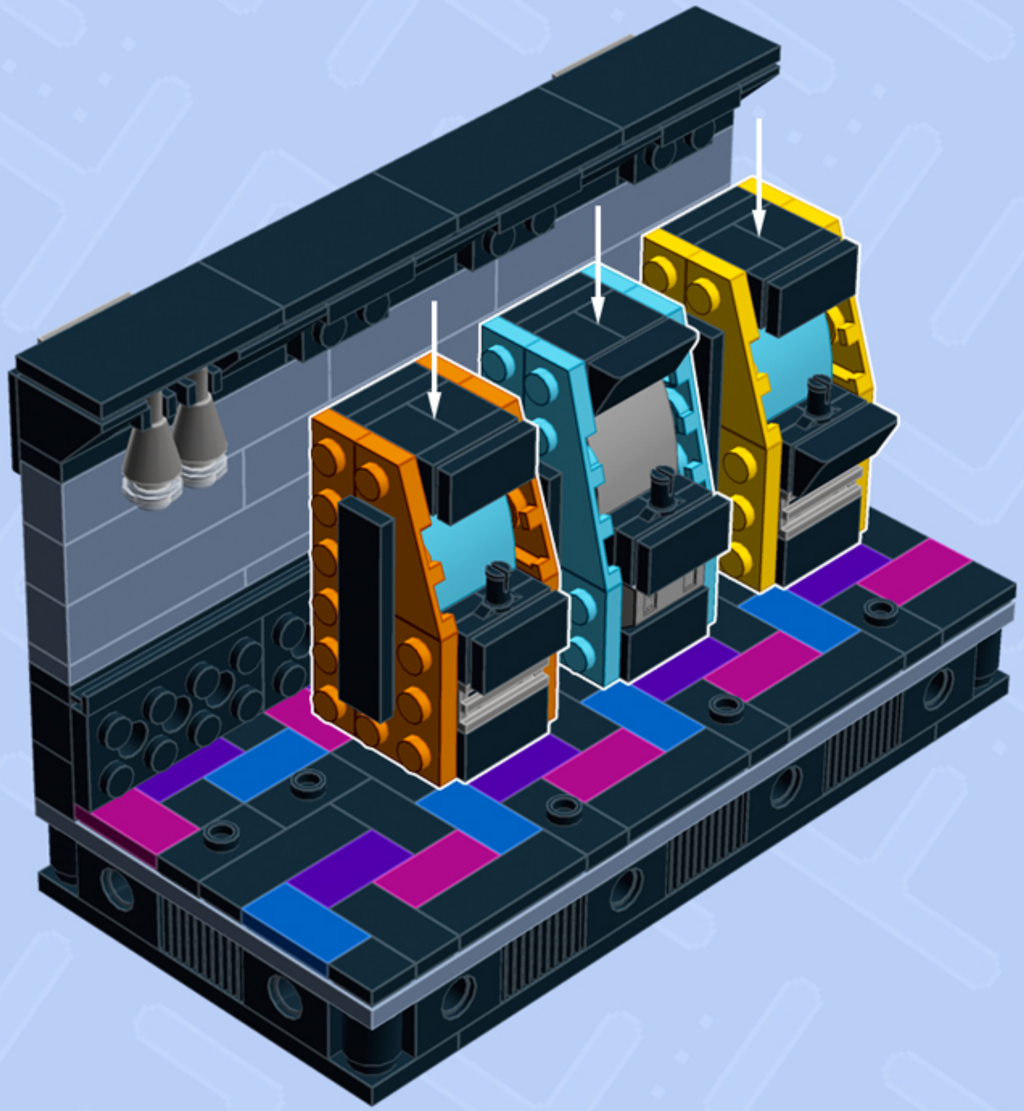
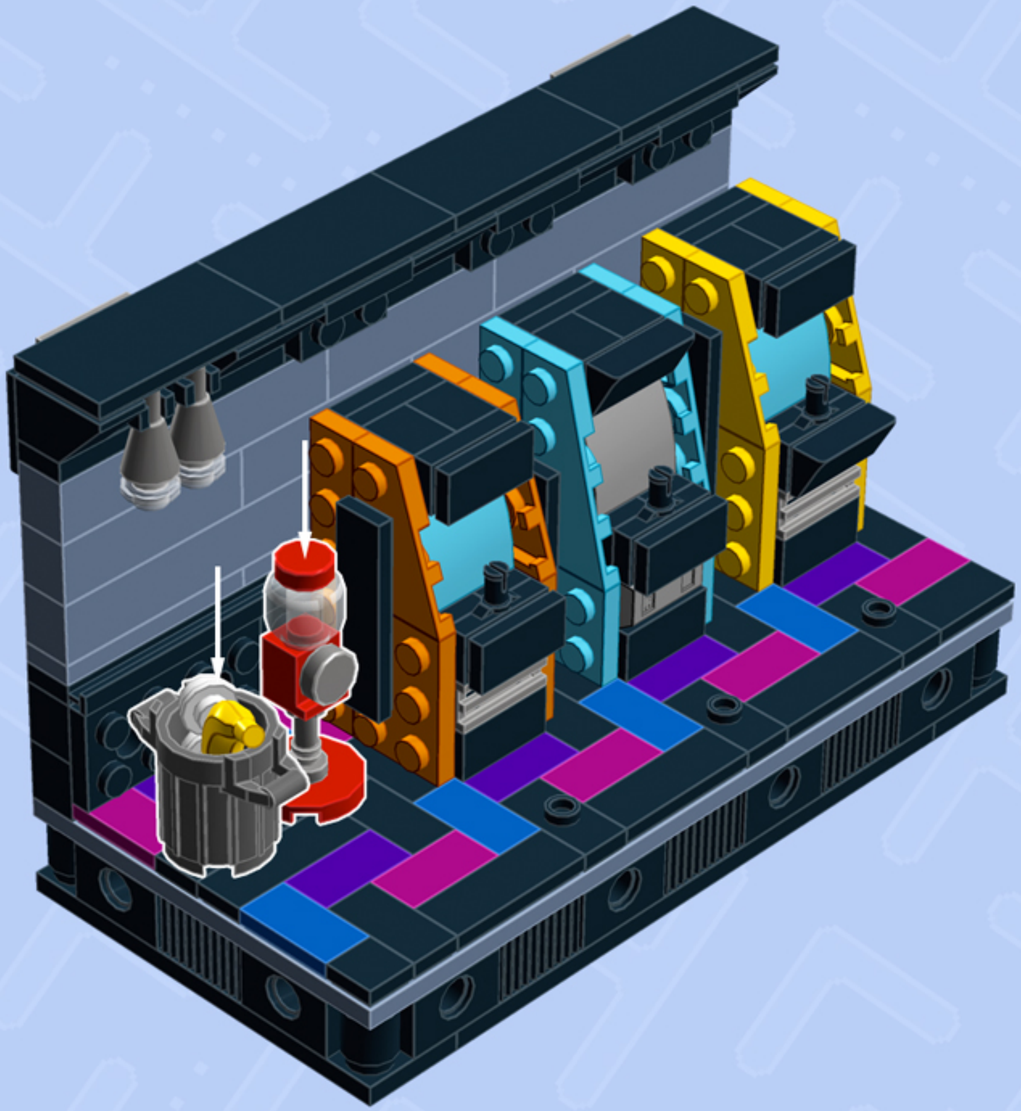
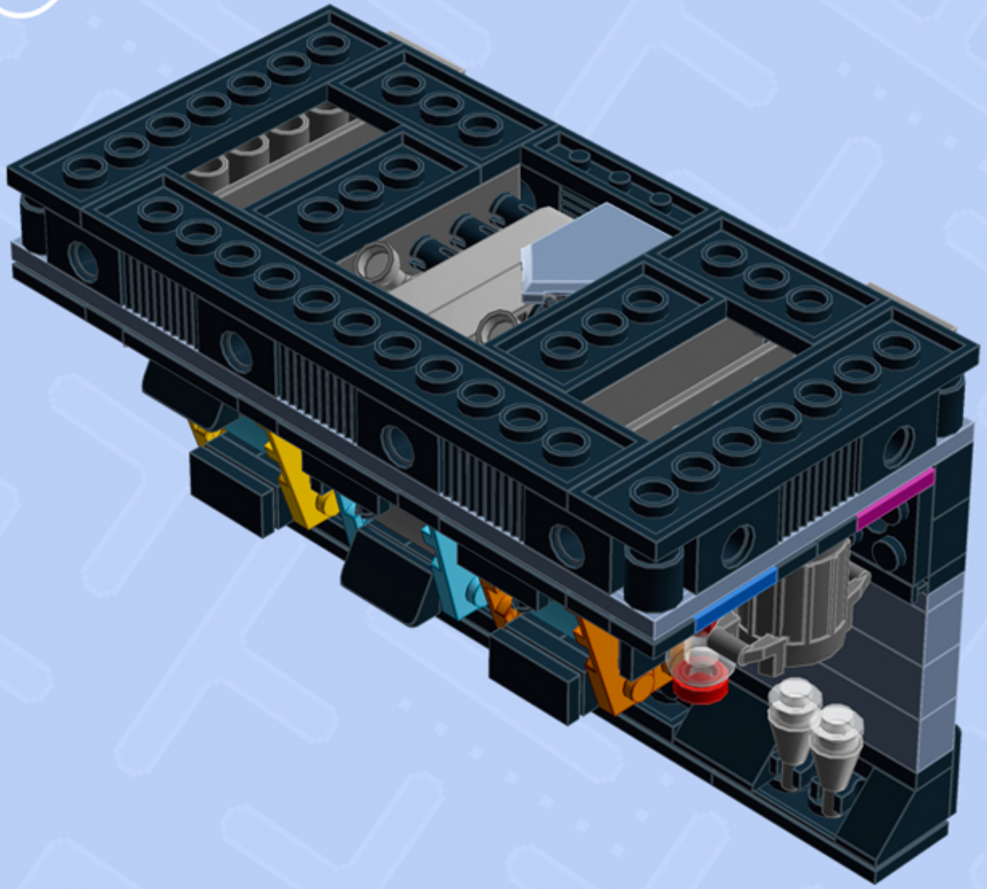
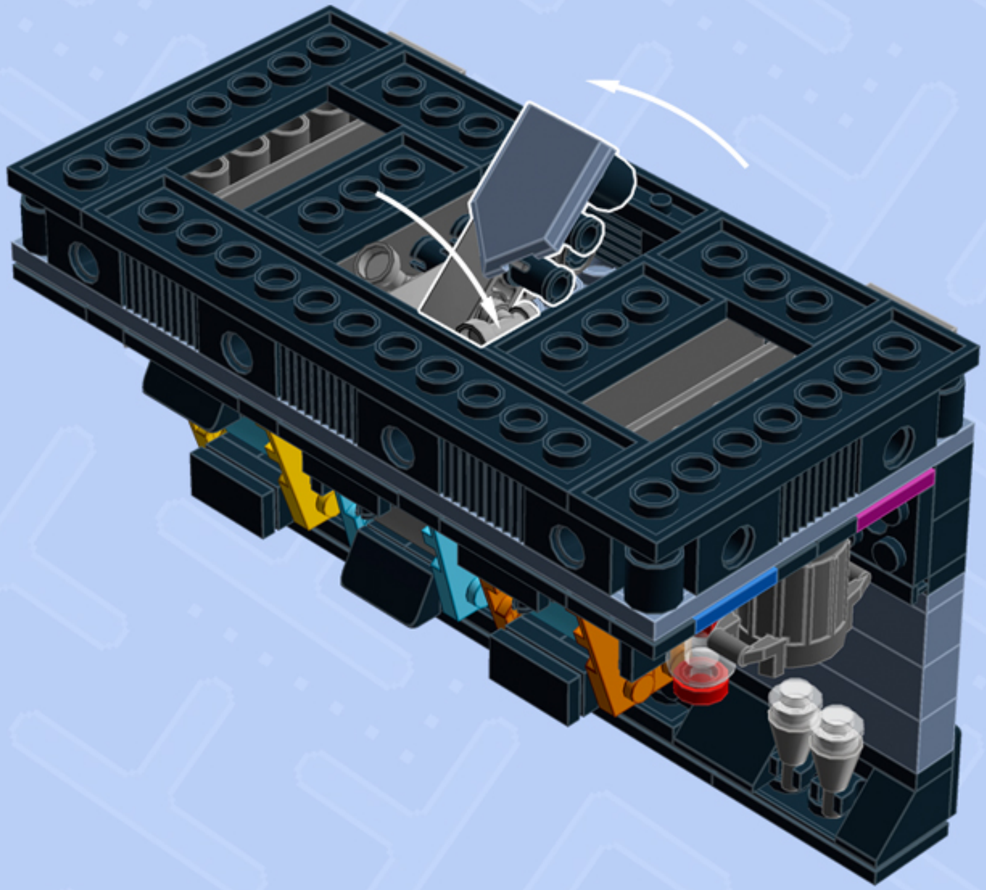
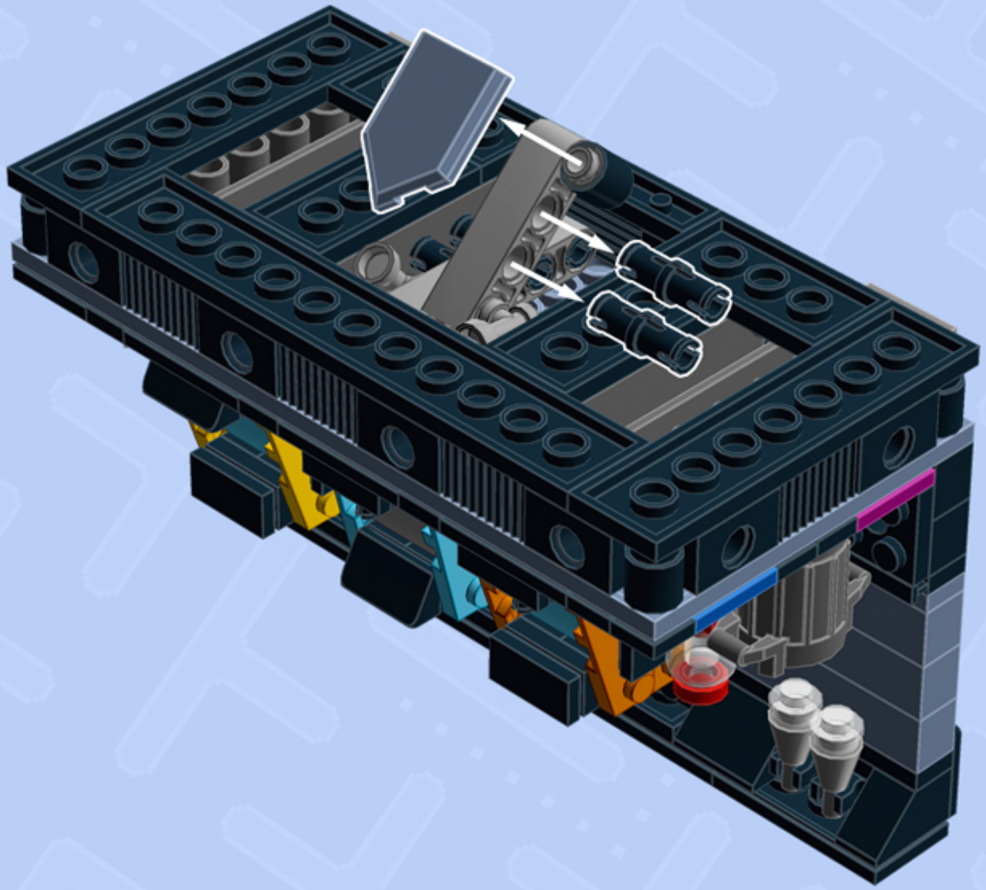
4 Add existing arcade machines, trash can, and gumball machine to base.

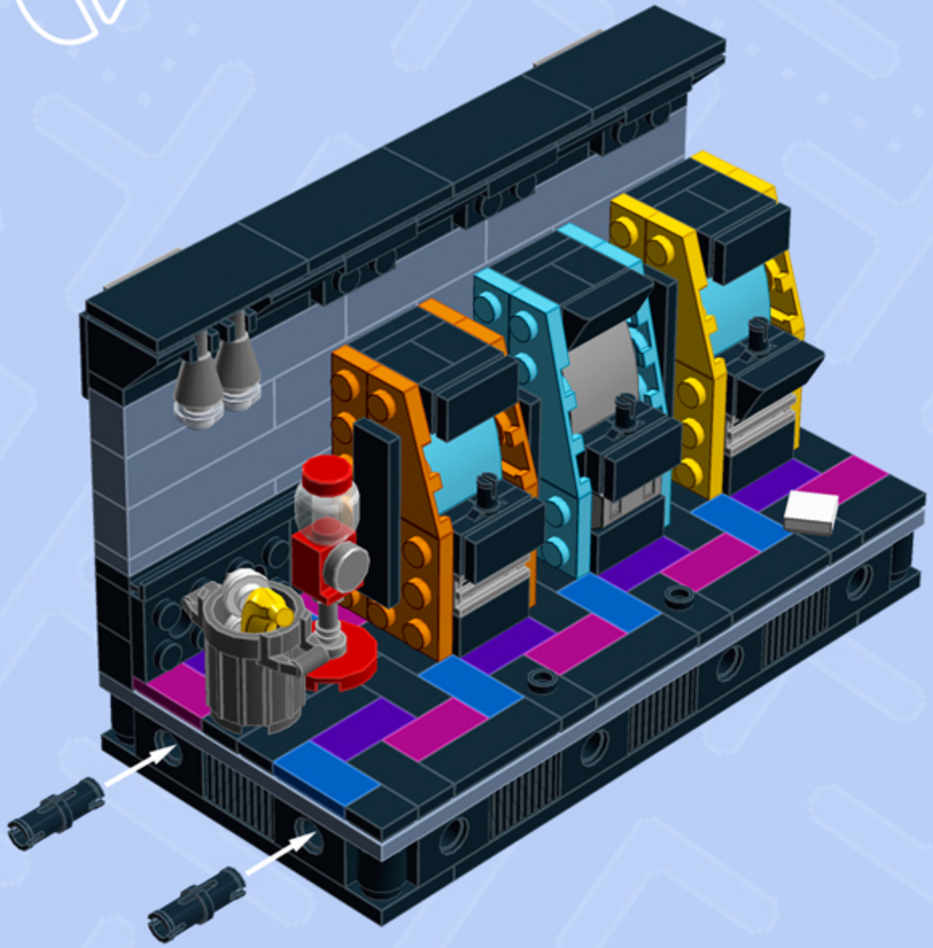


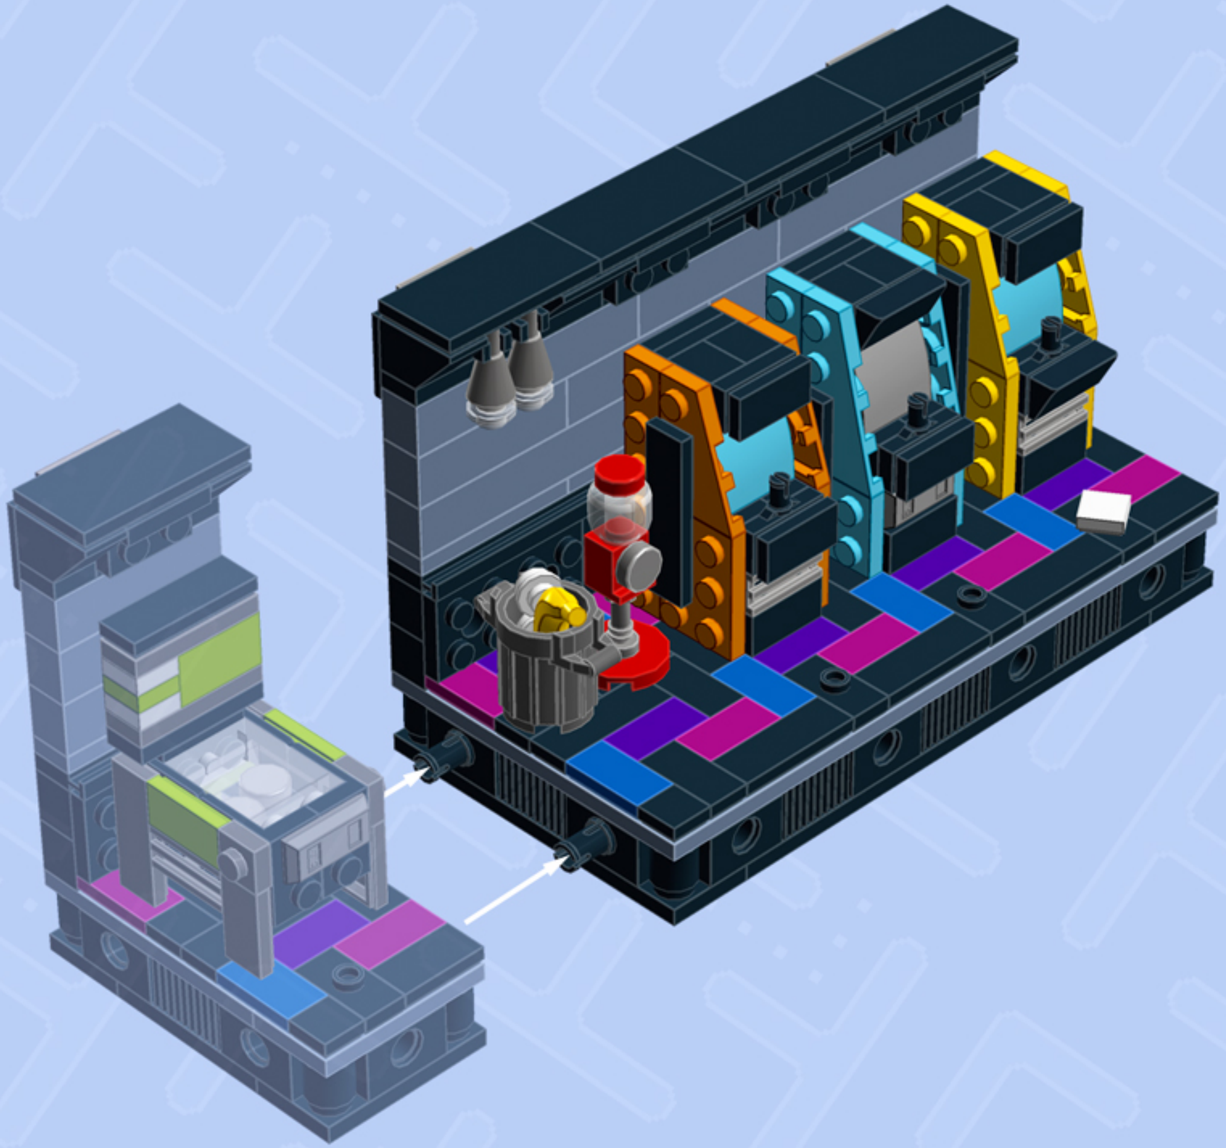


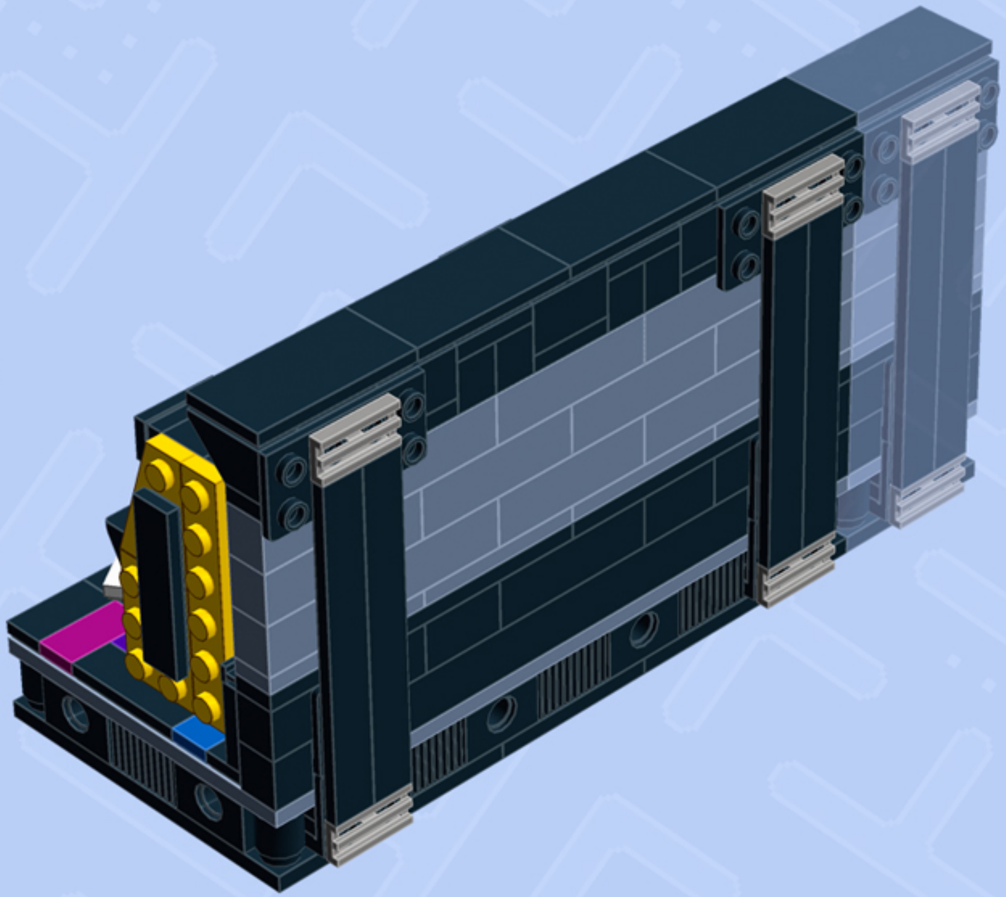


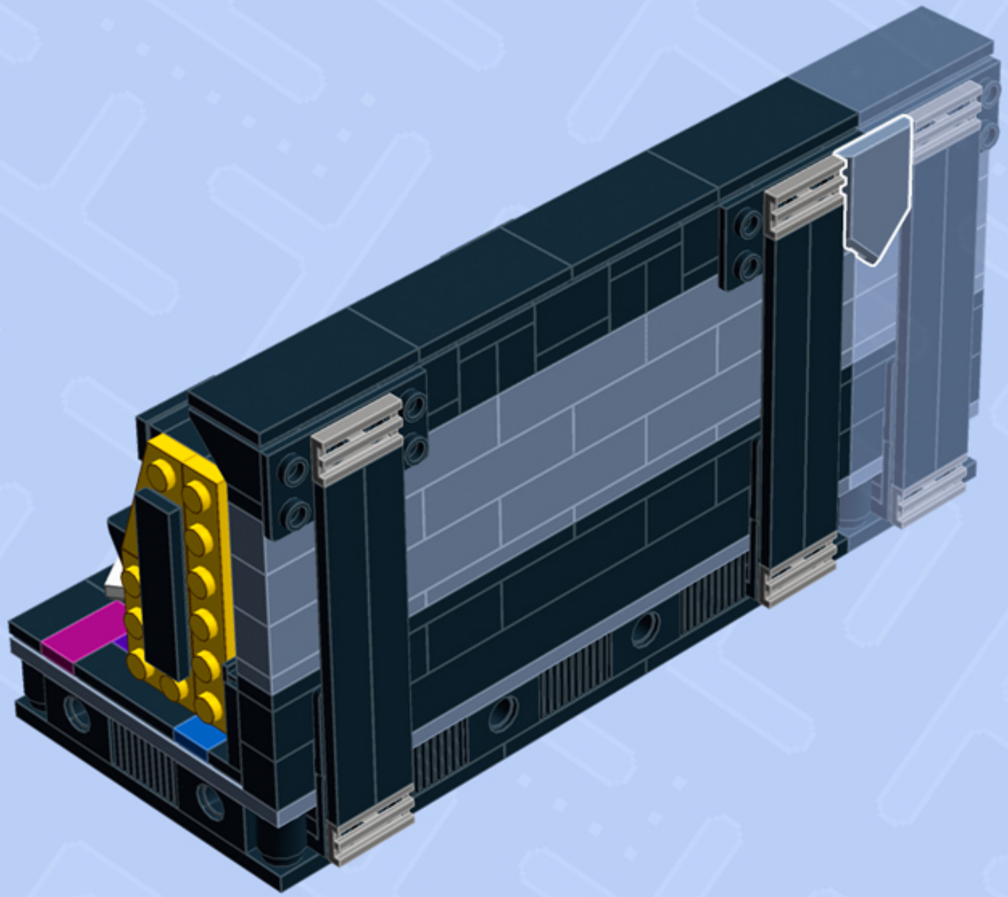












Modular Arcade units are designed to connect together, letting you create a miniature arcade that's entirely unique. Here's a few fun ideas to get you started!
